Organizing Secretary: Associazione "Medical Care Development Peace"
Piazza Duomo, 5 - 43121 Parma, Italy - e-mail: squarciaumberto@gmail.com

Echoes from the June 2015 Meeting

"The conference was really nice and Parma is a beautiful place. Looking forward to attending many such conferences." *T. K. (Mumbai, India)*

"... ma non ho dimenticato di dirti grazie grazie grazie per l'accoglienza che mi hai dato durante il tuo bellissimo congresso. Ti auguro di mantenere questa tradizione il più a lungo possibile." *R.B. (London, UK)*

"È stata una esperienza eccezionale dal punto scientifico, umanitario e culturale." *P.R. (Miami, Fl. USA)*

"We have safely returned home full of many lovely experiences. Expanding the topics of the scientific meeting with clinical topics was fascinating. But the most determinant day of the meeting was Saturday - the topics discussed during that day started to open new doors in our souls. Not only did we discuss pediatric cardiology, but also the role of doctors in bringing about peace and our role in helping the new generation of doctors become more ethical and humane." *E. - T. H. (Budapest, Hungary)*

"Parma meeting 2015 evolved to a 4D meeting; he has one more very interesting and precious dimension (a human dimension involved in peace making - which is a real must nowadays) to be added to the 3 others dimensions: the excellent scientific dimension, the wonderful social dimension, and the friendship familial dimension that is a unique stigmata of the meeting.... Thanks for the opportunity you gave all of us to participate "à la construction d'un monde meilleur plus humain et plein de Paix!!..." *M.G. (Paris, France)*

"Your conference just gets better with time. The scientific continent is outstanding and delivered by masters in their fields. The Social events are quite phenomenal and seem to get better every year. The historic and touristic aspects complement those other activities to make the while experience the finest in the world for pediatric cardiologists. The humanitarian thrust has proven to be a wonderful addition to this conference as well and has added a new dimension to the academic intellectual experience." *N.H.S. (Palo Alto, Cal. USA)*

"... il meeting di Parma è nel cuore di tante persone e merita tutta la dedizione che lei spende per questo evento e di questo le siamo tutti grati. È stato come al solito un bellissimo momento arricchito quest'anno anche dal tema della solidarietà per i più bisognosi del nostro ormai piccolo pianeta." *L.P. (Roma, Italy)*

"Peace, friendship, to hear and to try to understand the problems in education and medical management of different nations and to get information about the newest direction of Pediatric Cardiology- that is Parma Meeting ! Thanks" *K. - S. H. (Budapest, Hungary)*

"I really enjoyed the meeting, both scientifically and socially. I will spread the word!" *G.W. (Adelaide, Australia)*

"... la ringrazio per lo splendido congresso organizzato e sono stata onorata di avervi partecipato sia per la qualità scientifica che sul piano umano..." *G.S. (Firenze, Italy)*

"I had a great time in Parma last week! The course was again very interesting, very valuable lectures and discussions. And also the social meetings were valuable, I enjoyed it all very much! Thanks alot!" *A.B. (Nijmegen, Netherland)*

"... also memorable has been the experience of meeting the exceptionally talented group of ethical physicians and surgeons dedicated to the service of humanity. it was a privilege to converse with them and to participate in the discussions in the conference. you all are united by that essential human emotions of compassion and empathy through which you transmit to the less fortunate the benefits of your knowledge and expertise. beyond all this was the delight of seeing the treasures of Parma and Fontanelato, which leave a lasting impression, enhanced by the calm erudition of Umbi, who i hope to see again in NY." *I.R. (United Nations, New York, NY)*

"Ho avvertito in tutti , da qualunque parte del mondo provenissero , la gioia ed il piacere di partecipare ad un incontro fondato sull'amicizia, la cordialità e la stima reciproca." *E.S. (Parma, Italy)*

"I had a wonderful time, and I also learned a lot about both echocardiography and global health. It was a great experience, and I hope to visit again someday." *W. L. (Los Angeles, Cal. USA)*

"... it has grown into more than an echo mtg. - many cutting edge advances in our field are presented. I hope for a long associated between Univ of Parma and Mayo for future meetings. International flavor of research that regardless of differences in language, citizenship or religious beliefs were united in the world for care of children and adults with congenital heart disease!" *F.C. (Rochester, Minn. USA)*

"So far the distance between Parma and Nazareth so close they are in their spirit . The spirit of peace and compassion. In the name of those children with broken hearts living in poverty , I would like to thank you for giving them the opportunity to be part of this fascinating meeting and to talk to the audience. I hope that this meeting and its high scientific program and the special addition for medicine in the service of peace to continue for many years." *N.A. (Nazareth, Israel)*

"...volevo profondamente ringraziarla per tutto ciò che ha fatto per me, soprattutto per l'opportunità di aver partecipato ad un congresso così importante e diverso dagli altri. Ho apprezzato moltissimo le due sessioni scientifiche ma soprattutto l'imponenza di aver partecipato a dare alle scorse belle giornate!" *J.S. (Romania)*

"...as every year this meeting was one of the highlights of the year. The Saturday meeting about peace and medicine was particularly impressing and I got some new ideas how I can be of help. We do have to start somewhere otherwise we will not get anywhere!!!" *M.V. (Munich, Germany)*

"Siamo stati veramente impressionati dal bellissimo Congresso che hai organizzato e secondo lo schema annuale. Abbiamo goduto delle bellissime relazioni tenute da relatori di primo piano. Inoltre le conoscenze che abbiamo approfondito ci permettono di continuare sulla strada umanitaria che abbiamo da sempre seguito..." *V.V. (Bergamo, Italy)*

"encore merci pour ce merveilleux congrès un gran abrazo a lei y Ana" *M.T. (Paris, France)*

Friday May 27th

Centro Congressi S. Elisabetta, University Campus, Parma

Session 1 (9:00 - 10:30) **The new frontiers**

New development in Echocardiography: what is the next frontier?

Advantages and limitation of Deformation Imaging in CHD

Stress Echo in Pediatric Cardiology: what it adds?

Stress echocardiography: Its role in the management of congenital heart disease.

Left Atrial Size and Function in Pediatric Patients: Non invasive assessment and clinical outcome

Luc Mertens

Ben Eidem

Luc Mertens

Pierre Wong

Ben Eidem

Session 2 (11:00 - 12:30) **Myocardial Function**

Novel Echo Methods to assess Myocardial Contractility in CM

LV Mechanics in CM: new insights

Myocardial Mechanics in CHD: what parameters should be used to assess RV Function

Ben Eiden

Giuseppe Pacileo

Ben Eidem

ISABELLE JUE LECTURE

Myofibers Architecture in Hypertrophied RV

Stephen Sanders (Boston, Mass.)

Presenter **Alessandra Frigiola (London, UK)**

Session 3 (14:00 - 16:00) **Ventricles and VSD**

"Intramural" ventricular septal defects: clinical importance, diagnostic evaluation, surgical management **Pierre Wong**

RV Remodeling after TOF Repair: what drives to RV Dysfunction **Luc Mertens**

The Tricuspid Valve in HLHS: Anatomy-Function Correlation **Stephen Sanders**

Session 4 (16:00 - 17:00) **Patient Examination** Presenter **Aldo Agnetti, Roberta Bini**

Session 5 (18:00 - 19:00) Opening Ceremony in Aula Magna
